STAY CONNECTED

To all of our employees, I commend you for ensuring a smooth opening of schools. This school year is off to an amazing start, and at each Open House our parents and guardians have a chance to meet their children's teachers and principal. Open House night is usually the signature kick-off event for schools and is followed with many more events throughout the school year. I encourage you to continue to be involved in your child's school and education. Your support is critical for their success and will lead to a greater sense of independence and self confidence.

As always, I look forward to attending as many events as possible throughout the year and then highlighting our students, schools and communities.

Dr. Larry Feldman
